

Table 1: Summary of Data

Year	Q1	Q2	Q3	Q4
2018	100	120	150	180
2019	110	130	160	190
2020	120	140	170	200
2021	130	150	180	210
2022	140	160	190	220

Figure 1: Line chart showing the trend of data over time. The x-axis represents the year (2018-2022) and the y-axis represents the value (100-220). The data shows a consistent upward trend.

Figure 2: Bar chart showing the quarterly data for each year. The x-axis represents the year (2018-2022) and the y-axis represents the value (100-220). The data shows a consistent upward trend in each quarter.

Figure 3: Pie chart showing the distribution of data across different categories. The categories are A, B, C, and D. The distribution is as follows: A (30%), B (20%), C (40%), and D (10%).

Figure 4: Scatter plot showing the relationship between two variables. The x-axis represents variable X and the y-axis represents variable Y. The data points show a positive correlation.

Figure 5: Line chart showing the trend of data over time. The x-axis represents the year (2018-2022) and the y-axis represents the value (100-220). The data shows a consistent upward trend.

Figure 6: Bar chart showing the quarterly data for each year. The x-axis represents the year (2018-2022) and the y-axis represents the value (100-220). The data shows a consistent upward trend in each quarter.

Table 2: Summary of Data

Year	Q1	Q2	Q3	Q4
2018	100	120	150	180
2019	110	130	160	190
2020	120	140	170	200
2021	130	150	180	210
2022	140	160	190	220

Figure 7: Line chart showing the trend of data over time. The x-axis represents the year (2018-2022) and the y-axis represents the value (100-220). The data shows a consistent upward trend.

Figure 8: Bar chart showing the quarterly data for each year. The x-axis represents the year (2018-2022) and the y-axis represents the value (100-220). The data shows a consistent upward trend in each quarter.
